1. Apologies for absence.

Apologies for absence had been received from Councillor Silk who was nursing. This was accepted.

2. Declaration of Interest.

Councillor Campbell-Smith declared a personal interest in Agenda Item 9 and Councillor Luck a personal interest in agenda Item 8.

3. Minutes of the previous meeting.

Councillor Campbell-Smith proposed and Councillor Leigh seconded the resolution that the minutes of the meeting held on Thursday 1 November 2007 having been circulated be approved. The minutes were duly signed. The Chairman thanked Councillor Leigh as Vice-Chairman for taking the Chair at short notice.

4. Matters to Report.

4.1 CAG meeting 6 November

The Vice-Chairman reported on the meeting when Sgt. Scott reported that over the past 8 weeks they had good success at Wendling Telephone Exchange regarding the drugs problem and have identified the persons and moved them on. Extra patrols have been out in Dunham and there has only been one criminal damage. Some success has occurred in the Sandy Lane area although there are still concerns that the problem has not been eradicated. The offences have been pinned down to two individuals. Halloween was a success with extra patrols in town centres and schools were targeted. After lengthy discussion the priorities for the next six weeks were decided as the Maltings in Dereham where there are problems with noise, fires, drugs, fights and alarms being set off, continuing with Sandy Lane and extra patrols in town centres leading up to Christmas.

4.2 NCAPTC Breckland Area Meeting-Understanding the Planning System 13 November.

Councillor Campbell-Smith reported on his attendance at the meeting and felt that a considerable amount was made up as the meeting progressed. The attendees were given the opportunity to discuss planning applications but it was not much more use than doing a month's planning applications forwarded to the Parish for consideration. He felt that the meeting was not as informative as he would have wished.

4.3 Dereham and District Tourist Association AGM 22 November.

Councillor Hayes reported that after the formal business of the evening the main points to emerge were that the association is struggling for funding and has received a small contribution as a one off from Breckland. They are looking for new premises and continue to struggle for volunteers. There is only one parish that contributes to the Association and there is the scope for a parish page on their web site. The meeting concluded with a presentation from Jenny Lock of Greenbanks restaurant and hotel.

4.4 NRCC Council Meeting-The Impact of Climate Change.

The Chairman reported on his attendance which was very informative and attracted a full house. Many charts were displayed and it was stated that the UEA is the world's leading experts on climate change. The need is to reduce the carbon footprint to 60% of the current value by 2050 to restrict the temperature rise to 2 degreesC. 9 tons of carbon emission is generated by each individual per annum. Breckland does not fair too badly in the emissions produced although North Norfolk is the worst as there are considerable number of visitors who have holiday homes in the area. The U.K. as a whole only produces 2% of the world's emissions.

4.5 Breckland Council Local Government Review 20 November.

This had been well attended by Parish and Town Councils. The Leader and Chief Executive of Breckland Council had that morning been to a meeting with the Minister in London to try and obtain some answers. Unfortunately these answers were not forthcoming during the meeting. The proposals from the local councils had to be presented by the end of November but there were no terms of reference for the Boundary Committee and these were unlikely to be available until January. The proposals must come from the whole County not District Councils independently. Breckland Council is pressing for the status quo but this does not seem to be an option although this may be looked at provided the Councils' proposals show that the cost of implementation of a Unitary Authority is excessive. Each scheme that is costed to provide a viable solution would cost £600,000 and no funding is available from Central Government for this. To change would cost millions of pounds and there is no idea where this funding would come from. Parish Councils may have additional responsibilities for example for the collection of rubbish, lighting and roads and parishes may have to form cluster groups. The downside of this is that the services would be run by amateurs who are unpaid and have no experience.
